1d RED IMPERF NUMBERS IN CROSS SG 7 BLACK PLATE 9

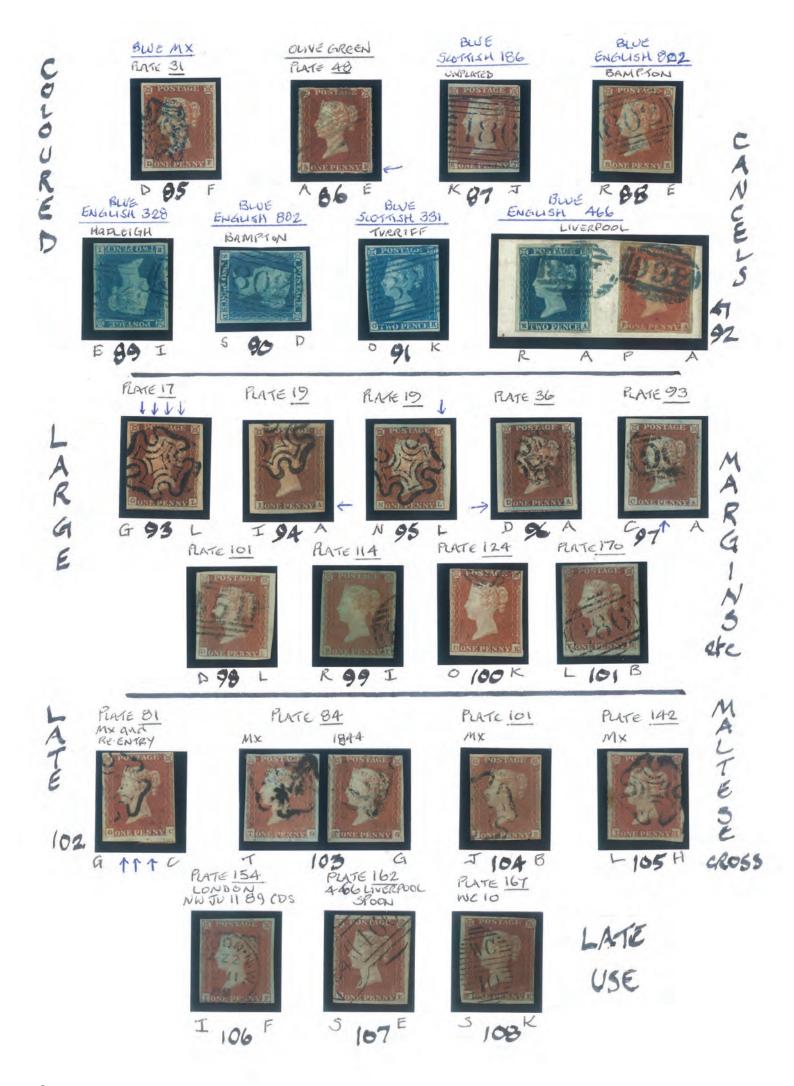

According to page 207 of Ken Statham's Essential Guide to the Great Britain Line Engraved 1d and 2d Stars, this plate was not defaced until 7 October 1843. "It occurs not infrequently with the numbers in cross cancellation, and the stamps are similar in shades to those of Plates 27 onwards". On page 415 Plate 27 he has the "put to press" date 5 September 1842 and the defaced date 7 October 1843 the same as Plate 9. This indicates a possible printing from Plate 9 within the same period which coincided with the introduction of numbers in crosses in London around about March 1843 until May 1844 when Maltese Cross cancels were replaced by numerals. As a consequence, they are more difficult than the standard numbers in crosses and they are listed on page 120 of the current SG Queen Victoria Volume 1 Part 1
